Portfolio

PROFILE

Computer Science undergraduate at NIAT × Joy University, building practical web applications while strengthening full-stack development fundamentals and practicing Data Structures & Algorithms. Interested in thoughtful interfaces, problem solving, and exploring AI-assisted engineering workflows.

TECHNICAL SKILLS

HTML5 · CSS3 · JavaScript ES6+ · Python · Data Structures & Algorithms · Git · GitHub Pages · AI Tools & Prompt Engineering

SELECTED PROJECTS

Smart Internship & Job Tracker

Live demo ↗ Source ↗

Responsive application dashboard with Kanban filters, summary analytics, and browser storage persistence.

HTML · CSS · JavaScript · localStorage

Algorithm & Sorting Visualizer

Live demo ↗ Source ↗

Interactive sorting demonstrations for Bubble, Selection, Insertion, Merge, and Quick Sort, with adjustable array size and animation speed.

HTML · CSS · JavaScript · Sorting Algorithms

Study Planner & Pomodoro Focus Hub

Live demo ↗ Source ↗

Productivity dashboard featuring a customizable Pomodoro timer, priority task manager, and daily focus streak tracking.

HTML · CSS · JavaScript

EDUCATION & FOCUS

B.Tech in Computer Science

2026–2030

NIAT × Joy University

Current focus: Full-stack web development, algorithmic problem solving, practical projects, and AI-assisted engineering workflows.
